Box No. VIII Certain observations on the international application

The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description, are made:

see separate sheet

Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Reference is made to the following document/s/:

D1: EP-A-1 112 773

The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of claims 1 and 8 is not new in the sense of Article 33(2) PCT.

D1 discloses a method and a device which fulfil the requirements specified in claims 1 (the alternative following "or") and 8 respectively (compare D1, figure 1(a) and 1(b) and the description page 3, lines 44-47

The features additionally claimed in dependent claims 2, 5 and 6 are also already known from D1, see e.g. D1, page 6, lines 1 and 6 and figure 1(a).

The features additionally specified in dependent claims 3-5, 7 and 9-13 are merely straightforward possibilities from which the skilled person would select, in accordance with circumstances, without the exercise of inventive skill, in order to solve the problem posed.

Re Item VIII

Certain observations on the international application

The features following "such" in claim 1 (page 9, line 11) and claim 12 (page 10, line 26) relate to a result or desired effect to be achieved. This render the said claims unclear (Article 6 PCT).
